

Engineering of template microstructures derived from nanofibers and mesoporous polymers

Sadhan C. Jana.

*DEPARTMENT OF POLYMER ENGINEERING UNIVERSITY OF AKRON, AKRON, OH
44325-0301 janas@uakron.edu Web : www.poly-eng.uakron.edu/jana.htm*

The talk will cover processing of nanofiber mats and mesoporous polymer materials geared towards applications involving high temperature lithium ion batteries, design of wound dressing materials, and oil-water separation.
